

12/20/2009 - Update Wordpress(2.8.6->2.9) Again

Wordpress 2.9 is available! Please Update Now..Huhu! This mean we should consider and better we update our Blog Dot Com. How ever it's up to you . As long as I cannot upgrade it automatically, so I have to download it again. I don't know why. Hopefully it didn't involved with my webhost. Anyway let's do it. Just like before;1. Log in to your dashboard(admin area)

2. Click Please update now
3. Click Download 2.9
4. Save WordPress-2.9.zip in your directory
5. Extract files, open and delete wp-config-sample
6. Upload all into public_html with ftp software(overwrite)
7. After completed upload, open your browse(Internet Explorer or Mozilla..) and Type Your Domain Name/wp-admin
8. Browse it and click Upgrade WordPress Database and Click Continue
9. Done!

Maybe different people with a different method but this is my method. Maybe you have your own steps.

p/s: Dapatkan Pakej Kit Blogger anda!
